

PROJECT PROSPECTUS · July 2026

S.K. Sharma & Co.

Compliance • Payroll • Manpower — Digital Workforce Consultancy

One workplace app for geo-fenced biometric attendance, multi-shift payroll, labour-law compliance, and ticketing — offered as a managed consultancy engagement.

01 • INTRODUCTION

Executive Summary

S.K. Sharma & Co. offers a unified digital workforce platform for Indian businesses of every scale — from a 12-bed nursing home and a 40-room resort to a 300-worker textile unit and a multi-branch education group. The platform replaces paper registers, disconnected biometric readers and manual salary sheets with a single mobile-first application that is deployed and managed by us on a consultancy basis.

Every module — attendance, leave, payroll, compliance filings, tickets, in-app messaging — is designed to match the way Indian firms actually operate: shift rotations, weekly-off holidays, factory overtime, resort live-in employees, school teaching hours and monthly compliance filings. Firms adopt what they need, tuned to their business type.

संक्षिप्त परिचय: एस.के. शर्मा एंड कंपनी द्वारा प्रस्तुत यह वर्कफोर्स प्लेटफॉर्म भारतीय व्यवसायों के लिए तैयार किया गया है — अस्पताल, होटल/रजिस्टर्ड, उद्योग, स्कूल, आईटी कंपनी, कंस्ट्रक्शन साइट और सर्विस प्रोवाइडर सभी के लिए। एक ही मोबाइल ऐप में जियो-फेंस बायोमेट्रिक हाजिरी, बहु-शिफ्ट पेरोल, श्रम कानून अनुपालन और शकियत टिकट प्रबंधन उपलब्ध है। संपूर्ण सेटअप और रखरखाव हमारी कंसल्टेंसी टीम द्वारा किया जाता है।

Why a consultancy engagement, not a SaaS subscription?

We do the heavy lifting so your HR / admin team doesn't have to — geofence setup, biometric enrolment, shift design, compliance filing calendars, monthly payroll runs and periodic audits. You get outcomes, not just software.

At a glance

Deployment window	Live within 7 – 14 working days per site
Employee onboarding	Self-serve with OCR ID parsing (~90 seconds / worker)
Biometric method	Live camera face-match (Gemini 3 Flash) + geofence
Business types tuned	9 categories with 25+ industry sub-types
Attendance rules	Presets per business type, admin-editable
Payslip delivery	Email (Resend) + in-app PDF download
Data ownership	Client-owned MongoDB — full export any time

02 · PRODUCT

What the App Does

The platform is offered as an Android + iOS mobile application with a companion web console for admins. It runs on the employee's own phone using the device camera and GPS — no dedicated hardware is required at most sites.

यह ऐप कर्मचारी के अपने मोबाइल पर चलता है — कैमरा और जीपीएस के माध्यम से बायोमेट्रिक एवं जियो-फेंस्ड हाजिरी दर्ज होती है। किसी अतिरिक्त हार्डवेयर की आवश्यकता नहीं है।

<i>Geo-fenced attendance</i>	Employees punch in / out only when inside a configurable office radius. Auto-punch triggers on entering / leaving the site, so field staff don't have to remember.
<i>Face-match biometric</i>	Every punch captures a selfie which is compared to the employee's enrolled photo using Gemini 3 Flash. Mismatches are flagged for admin review.
<i>Multiple in/out per day</i>	Realistic for shift workers, resort staff and site engineers — every entry/exit is logged as a separate session and shown on a timeline.
<i>Multi-shift & policy tuning</i>	Firms pick a business-type preset (Hospital, Hotel/Resort, Industry, School, IT, Construction, Automobile, Service, Other). Shifts, weekly-off, overtime and grace period are all editable.
<i>Approval workflow</i>	Every auto-punch can be sent to the admin queue for Approve, Reject (mandatory reason) or Adjust (mandatory manual time). Manual punches skip the queue.
<i>Live-in / resort staff bypass</i>	Employees flagged as 'live-in' are exempt from the geofence and are marked present via a daily roster screen — perfect for hotel and hospital staff quarters.
<i>Leave & approvals</i>	Employees apply from the app; company admin approves; super admin sees a firm-wide queue. Balance and history stay in sync.
<i>Payroll & payslips</i>	Monthly salary generation with earnings / deductions / statutory heads. Payslips are e-mailed via Resend and downloadable in-app.
<i>Compliance documents</i>	Central vault for PF, ESI, PT, LWF, Shops & Establishment and Factories Act filings with expiry reminders.
<i>Tickets & messaging</i>	Employees raise issues (PF query, salary correction, harassment, etc.) with PDF or photo attachments. Admins broadcast announcements via in-app messages.
<i>Reports & exports</i>	Attendance registers, salary summaries, muster rolls, statutory returns — all exportable to XLSX / PDF.

03 · FIRM MASTER

Business Types Supported

During onboarding the client picks a business type from a curated dropdown. This choice pre-loads an attendance policy tuned to that industry (shifts, weekly-off, overtime thresholds, night allowance, break hours). The company admin can then override any field on the Attendance Policy screen.

फर्म मास्टर में व्यवसाय का प्रकार चुनते ही उस उद्योग के अनुरूप हाजिरी नीत स्वतः लागू हो जाती है, जसै बाद में एडमिनि अपनी आवश्यकता अनुसार बदल सकते हैं।

<i>Hospital</i>	24×7 rotational — 3 shifts, no fixed weekly off, night allowance ON, OT after 8 h @ 1.5×.
<i>Hotel / Resort</i>	3 rotational shifts, one compensatory weekly-off, night allowance ON. Live-in bypass supported for staff-quarters employees.
<i>Industry (Textile · Food · Polybag · Engineering · Chemical · Pharma · Steel · Cement · Electronics · Paper · Leather · Rubber · Furniture · Fertilizer · Gems · Printing · Ceramics · Glass · Agro · Mining · Oil & Gas · Marine · Handicrafts + more)</i>	3 shifts (A / B / C), Sunday weekly-off, 1 hour unpaid lunch, OT after 8 h @ 2× (Factories-Act aligned).
<i>Service Provider</i>	Single 9:30 – 18:30 general shift, Sunday off, OT after 9 h @ 1.5×.
<i>IT Company</i>	10:00 – 19:00 general shift, Saturday + Sunday off, generous 30-minute late grace, OT recorded only when explicitly approved.
<i>Construction</i>	Site shift 08:00 – 17:00, rotational weekly-off, OT after 8 h @ 2×.
<i>School / Education</i>	08:00 – 14:30 teaching hours, Sunday off, no OT (fixed pay). Extra classes tracked separately as ticket-based claims.
<i>Automobile Workshop / Dealership</i>	09:00 – 18:00, Sunday off, OT after 8 h @ 1.5×.
<i>Other</i>	Generic 09:00 – 18:00, Sunday off, OT after 9 h @ 1.5× — fully editable.

Adding a category or sub-type is a 30-minute change

The taxonomy lives server-side and is version-controlled. If your industry isn't listed we add it — no app update required.

04 · RULES ENGINE

Attendance Policy Framework

Every firm's attendance rules are captured as a single policy document editable from the app. The following knobs are available on every business-type preset — reload the preset any time to start over, or tweak individual fields.

<i>Shifts (name + start + end)</i>	Multiple shifts per firm; overnight shifts calculated correctly.
<i>Weekly off days</i>	Multi-select — pick zero, one or multiple days per week.
<i>Grace minutes for late-in</i>	0 – 120 minutes. Late marks are auto-tagged beyond this.
<i>Half-day threshold</i>	Hours below this count as half-day (typical 4 h).
<i>Full-day threshold</i>	Hours at or above this count as full-day (typical 8 h).
<i>Break hours (unpaid)</i>	Deducted from worked hours in reports.
<i>Overtime threshold</i>	Hours after which OT starts (typically 8 or 9).
<i>Overtime multiplier</i>	1.0×, 1.5×, 2.0× or a custom decimal.
<i>Night-shift allowance</i>	Toggle + configurable window (e.g. 22:00 – 06:00).
<i>Punch approval required</i>	Optional gate — every auto punch waits for admin action.

Approval workflow · Approve / Reject / Adjust

Auto punches created outside the geofence, at odd hours, or by a face that does not match the enrolled selfie are queued for admin review. The admin can Approve, Reject with a mandatory reason, or Adjust — entering the corrected wall-clock time (mandatory). Rejected and pending punches are excluded from working-hours math automatically.

05 • PERSONAS

Who Uses the App

Employee

- PIN or Company-code sign-in in under 15 seconds.
- Auto and manual punch with selfie + geofence check.
- View own attendance calendar, payslips, tickets and messages.
- Apply leave, upload compliance IDs, edit personal profile (with admin approval).

Company Admin

- Employee onboarding with OCR ID parsing (Aadhaar, PAN, driving licence).
- Approve leaves, tickets, profile edits and pending punches.
- Set / override attendance policy, manage branches and geofence radius.
- Generate payroll runs and email payslips (Resend integration).
- Broadcast in-app messages and view firm-wide dashboards.

Super Admin (S.K. Sharma & Co.)

- Manage client firms — create, edit, off-board, set business type.
- Cross-firm dashboards: employees, present-today, pending approvals, open tickets.
- Compliance monitoring across all client firms.
- Audit trail of every attendance decision (approve / reject / adjust).

06 · UNDER THE HOOD

Technology & Security

<i>Mobile app</i>	Expo React Native — installable via Play Store, App Store or in-house link. Works on Android 8+ and iOS 14+.
<i>Backend</i>	Python 3.11 + FastAPI, containerised, deployed on Kubernetes with automatic restarts.
<i>Database</i>	MongoDB with encrypted-at-rest storage. Full daily backups; on request the entire dataset is exportable to the client's own MongoDB cluster.
<i>AI / OCR</i>	Google Gemini 3 Flash — OCR for ID cards and face-match at punch time. No customer biometric data leaves our stack; only ephemeral base64 selfies are processed.
<i>Payslip email</i>	Resend transactional email — DKIM signed, delivered from a domain of your choice.
<i>Authentication</i>	Employee PIN (bcrypt-hashed) + optional biometric device lock. Company Admin gets a temporary PIN on provisioning that must be changed on first login.
<i>Session & network</i>	All API calls over HTTPS (TLS 1.3), JWT tokens with 24-hour expiry, refresh via re-login.
<i>Audit trail</i>	Every attendance decision, profile edit, leave action and payroll change is stored immutably with the actor's user ID and timestamp.
<i>Compliance</i>	Aligns with Indian IT Act, Payment of Wages Act 1936, Factories Act 1948, Shops & Establishments Act (state-specific), PF Act 1952, ESI Act 1948.

07 · DELIVERY

Engagement Timeline

A typical rollout follows the milestones below. For a firm with fewer than 100 employees and one location, everything from kick-off to first monthly payslip run happens within 14 working days.

<i>Day 1 – 2 · Kick-off</i>	Discovery workshop, business-type selection, shift design, geofence marking, compliance document collection.
<i>Day 3 – 5 · Provisioning</i>	Client firm created in the console with the recommended attendance-policy preset; branches and geofences configured; admin credentials issued.
<i>Day 5 – 8 · Employee onboarding</i>	Bulk import via Excel or self-serve via OCR (Aadhaar / PAN scan). Face enrolment captured live. Company code shared with employees.
<i>Day 8 – 10 · Pilot run</i>	First 3 days of live attendance, punch approvals reviewed together, calibration of grace period and OT thresholds.
<i>Day 10 – 14 · Payroll & compliance</i>	First payroll run generated and mailed. Compliance document tracker populated. Handover checklist signed.
<i>Month 2 onwards · Managed operations</i>	Monthly payroll run, statutory filings tracker, audit reports, quarterly review call.

Support model

During business hours (10:00 – 19:00 IST, Mon – Sat) we respond within 2 hours on WhatsApp and 4 hours on email. Critical outages are attended within 30 minutes.

08 • ENGAGEMENT

Consultancy Model

We work as your outsourced digital HR partner — not as a shrink-wrapped SaaS vendor. Every plan bundles the software, the setup effort and the ongoing operational touch-points that most Indian firms actually need.

<i>Setup</i>	Discovery workshop, geofence marking, attendance-policy tuning, biometric enrolment for the entire workforce, admin & employee training.
<i>Managed operations</i>	Monthly payroll run, payslip dispatch, compliance filing calendar, punch approval sweeps twice a week, quarterly review meeting.
<i>Support</i>	Named account manager, WhatsApp + email + phone support with defined response SLAs.
<i>Upgrades</i>	All new features (like ZKTeco physical biometric integration, expense reimbursement, SQL sync) are shipped free during the engagement.
<i>Investment</i>	Fee is finalised on the table basis firm size, number of branches and complexity of compliance filings. Please write in and we will share a right-sized proposal.

Commercials will be discussed on the table

We do not publish list prices — every proposal is scoped to your headcount, sites and compliance needs so that you pay only for what you use. Contact us for a free 30-minute discovery call.

09 • NEXT STEP

Let's Talk

The fastest way to see this platform in action is a 30-minute live demo on your phone. We can walk your team through the exact modules that matter for your industry, and share sample reports the same day.

एक 30 मिनट के डेमो के लिए हमसे संपर्क करें — हम आपकी टीम को आपके उद्योग के अनुरूप मॉड्यूल दिखाएंगे और उसी दिन नमूना रपोर्ट साझा करेंगे।
